

# GOING SOMEWHERE?

## Visit our International Travel Clinic First

Traveling can be a great adventure, but you need to be careful. Different parts of the world present a variety of infectious risks to travelers. If you are planning to visit a foreign country, your first stop should be Cambridge Medical Center. Our International Travel Clinic provides information and vaccinations for all of our patients (including children) who are traveling abroad.

### **Dr. Worku** **Infectious Disease Specialist**

Dr. Worku is an expert in infectious disease and travel health risk. In addition to being a board-certified internal medicine physician he also holds a Ph.D. in infectious diseases from the Karolinska Institute in Stockholm Sweden. He has personal experience in international travel, having lived in Ethiopia, Sweden and the United States.

For an appointment with Dr. Worku and the Travel Clinic, call **763-689-8700**. You will be asked to provide the names of the countries you'll be visiting when you make the appointment.
